

Fremont Open Space Committee Meeting Minutes
Tuesday November 3, 2009
Approved 02/02/2010

Attendance: Jack Karcz, Jack Downing, Jean Ragonese, Mathew Thomas, Kenn Jones; and Julie LaBranche from the Rockingham Planning Commission.

The meeting began at 7:05 pm.

The purpose of the meeting was to review the preliminary report created by the CTAP Open Space Task Force to be presented to the Fremont Planning Board and the Fremont Board of Selectmen. The report provides an overview of the methodologies utilized to evaluate and rank particular parcels within town as well as an overall plan for open space within the town.

Included within the report are maps that delineate particular resources within town as well as a finalized map that identifies the green infrastructure and priority parcels for protection.

After reviewing the materials the group agreed to include additional materials such as the existing spreadsheet used by the Open Space Committee for property evaluation and a general valuation of potential parcels to use as guideline for the Capital Improvement Plan (CIP)

Final Edits of the report will be accomplished via email and the final report will be presented to the Fremont Planning Board during their December 2nd meeting unless scheduling conflicts arise.

The Committee reevaluated a potential piece of property at the request of the land owner. There were no significant changes in the overall score of the property hence no changes in the decision of the Committee.

The Committee voted to accept minutes from previous Open Space meetings and agreed to meet again Tuesday February 2, 2010 at 7:00 pm.

The meeting adjourned at 8:25 pm.

Notes taken by Kenn Jones
